Guía Rápida de Gramática Inglés — Nivel B1 (CEFR)

Estructuras intermedias de B1: condicionales, voz pasiva, discurso indirecto y tiempos perfectos para expresar ideas más complejas con fluidez.

## 1. Oraciones condicionales (Conditionals)

### Zero Conditional — verdades generales/científicas

**If + present simple, + present simple**

*Ej: If you heat water to 100°C, it boils.*

### First Conditional — situaciones futuras probables

**If + present simple, + will + verbo**

*Ej: If it rains tomorrow, I will stay home. / If she studies, she will pass the exam.*

### Second Conditional — situaciones hipotéticas/improbables

**If + past simple, + would + verbo**

*Ej: If I won the lottery, I would travel around the world. / If I were you, I wouldn't do that.*

■ En segundo condicional usamos 'were' para todas las personas con el verbo to be: 'If I were rich...' (no 'was', aunque también se escucha informalmente).

## 2. Present Perfect vs Past Simple

**Past simple:** acción terminada, con tiempo específico. **Present perfect:** conecta el pasado con el presente, sin tiempo específico o con relevancia actual.

*Ej: I visited Paris in 2019. (tiempo específico → past simple)*

*Ej: I have visited Paris three times. (experiencia, sin fecha específica → present perfect)*

*Ej: She has just finished her homework. / She finished her homework at 6pm.*

## 3. Present Perfect Continuous

Acción que empezó en el pasado y continúa (o acaba de terminar), enfatizando la duración. Estructura:  
**have/has been + verbo-ing**

*Ej: I have been studying English for two years. / She has been working here since 2020.*

*Ej: Why are you tired? — I've been running.*

■ FOR + duración (for two years) / SINCE + punto en el tiempo (since 2020)

## 4. Past Perfect

Acción que ocurrió antes de otra acción en el pasado. Estructura: **had + participio pasado**

*Ej: When I arrived, she had already left. / I had never seen snow before I visited Canada.*

■ Se usa para mostrar el orden de dos eventos pasados: el past perfect ocurre primero, el past simple ocurre después.

## 5. Voz pasiva (Passive Voice)

Se usa cuando la acción es más importante que quien la realiza. Estructura: **be + participio pasado (+ by + agente)**

| Tiempo          | Activa                     | Pasiva                       |
|-----------------|----------------------------|------------------------------|
| Present simple  | They make cars.            | Cars are made (by them).     |
| Past simple     | She wrote the book.        | The book was written by her. |
| Present perfect | They have built the house. | The house has been built.    |
| Future (will)   | They will fix it.          | It will be fixed.            |

## 6. Reported Speech (discurso indirecto)

Al reportar lo que alguien dijo, los tiempos verbales generalmente retroceden un paso.

| Discurso directo             | Discurso indirecto                |
|------------------------------|-----------------------------------|
| "I am tired," she said.      | She said (that) she was tired.    |
| "I will call you," he said.  | He said (that) he would call me.  |
| "I have finished," she said. | She said (that) she had finished. |
| "I can swim," he said.       | He said (that) he could swim.     |

■ Cambios comunes: am/is/are→was/were | will→would | can→could | have→had

## 7. Relative Clauses (who, which, that, where, whose)

| Pronombre | Uso                         | Ejemplo                                    |
|-----------|-----------------------------|--------------------------------------------|
| who       | personas                    | The man who called you is my uncle.        |
| which     | cosas/animales              | The car which I bought is red.             |
| that      | personas o cosas (informal) | The book that I read was great.            |
| where     | lugares                     | This is the city where I was born.         |
| whose     | posesión                    | That's the girl whose brother is a doctor. |

## 8. USED TO (hábitos pasados)

Para hablar de hábitos o estados que ya no ocurren. Estructura: **used to + verbo base**

Ej: *I used to play football when I was a child. / She didn't use to like vegetables.*

■ No confundir con 'be used to' (estar acostumbrado a) que va seguido de -ing: 'I am used to waking up early.'

## 9. Modales de deducción: must, might, could, can't

| Modal       | Grado de certeza       | Ejemplo                              |
|-------------|------------------------|--------------------------------------|
| must        | casi seguro (positivo) | He must be tired; he worked all day. |
| might/could | posible                | She might be at home.                |
| can't       | casi seguro (negativo) | That can't be true.                  |

## 10. Gerundios e infinitivos: verbos con preposición

Después de una preposición, el verbo siempre va en gerundio (-ing).

Ej: *I'm interested in learning Japanese. / She is good at painting. / Thank you for helping me.*

Algunos verbos cambian de significado según usen -ing o to+infinitivo:

Ej: *I stopped smoking. (dejé de fumar) vs. I stopped to smoke. (me detuve para fumar)*

■ En B1 empiezas a combinar varias estructuras en un mismo texto: condicionales, pasiva y discurso indirecto son claves para escribir historias y opiniones más elaboradas.
